WAUSAU Approves Orbograph's OrboCAR APEX for Use with Optima³® Solution

"On demand" Remote Keying Nearly Eliminates Manual Amount Entry from Check Processing

Billerica, MA, April 16, 2008 – Orbograph Ltd, a leading provider of image-based recognition solutions and provider of business process outsourcing technologies, announced today that WAUSAU has approved the general release of OrboCAR APEX as part of its Optima³® solution. Use of OrboCAR APEX increases the benefits of WAUSAU's Optima³® by nearly eliminating all manual amount entry from check processing.

"The post Check 21 environment of item processing demands greater operational efficiencies," explained Trudy Lotter, WAUSAU's Product Manager for Optima³®. "Our clients are struggling with ways to be more flexible with their staff, lower labor costs and directly tie fixed costs to variable volumes all while processing windows shrink. The OrboCAR APEX solution helps our clients achieve these objectives."

"The use of OrboCAR APEX for effective data completion within the financial transaction processing industry continues to grow," said Andy Leonhardt, Vice President of Sales for Orbograph. "For almost 10 years Orbograph and WAUSAU have been business partners, improving the efficiency of financial institutions. We are pleased WAUSAU has included OrboCAR APEX in their solution set and are now able to offer their clients an opportunity to reduce costs by up to 30%."

Over 2 million items are sent to OrboCAR APEX daily from over 100 processing sites nationwide. As a reliable, scalable solution, OrboCAR APEX is in production at client sites ranging from community banks to high volume service bureaus.

Leveraging Orbograph's patented Key-Pay™ technology, OrboCAR APEX is a highly secure, "on demand," remote keying resource that routes "snippets" of low confidence or unread fields (encrypted) to tightly managed business process outsource (BPO) organizations. This near real-time, data completion provided by OrboCAR APEX enables financial institutions to leverage their investment in image-based check processing by automating the entire recognition process.

About WAUSAU Financial Systems
